

AnnaSki Update
april 2011

Great results

A goal for this season was to get my points on Super G and Downhill below 200, to be able to do European Cups. Well, in spring I was in Canada and Alaska to do this... and it happened! Not even below 200, my Super G points are good for World-cups!

At the end of the season I also got my Giant Slalom points below 100, which means I can also do that in World cups. So next year I take the skiing to another level. More races for me where I can ski even more serious results.

ParaStars

On the 13th of April in Amsterdam Team ParaStars were presented. This is a very unique and special team, with six adaptive sportspersons. This team is initiated by Esther Vergeer, who is a very successful wheelchair tennis player herself. Together with Marije Smits (athletics), Mike van der Zanden (swimming), Ronald Hertog (athletics) en Barend Kol (sailing) also I am part of team ParaStars!

With this team we'd like to gain more attention for adaptive sports in media. Besides that we hope to get many fans who think the same. And to support our own carriers. Check www.TeamParaStars.nl for more information (sorry, it's all in Dutch)

Thank to the Sponsors!

As you can see on the right, I skied great results this year! Off course because of a lot of training. But this wouldn't be possible without the help of many. I thank the Dutch ski Federation for facilitating everything. Special thanks to my coach **Falco Teitsma**, who trained and motivated me the right way. I thank TCK Sports for the ski's and material of **Volkl, Tecnica, Marker, Leki and Uvex!** Indoorski Veenendaal, thanks for al the hours of **training**, Profile Peerenboom for the **bicycle and accessories**. I thank TechnoGym for the **indoor bike** so I could keep up the cycling hours at home. Snowworld thank you for the **season card**. And off course thanks to Oke Coaching who supports me every month with **financial help** for the skiing carrier!
